

# Low-Cost Composite Video + Audio to HDMI Converter

Connects Composite video source to HDMI video monitor/projector.

CVA-HD-LC

## Features & Applications

The Low-Cost Composite to HDMI Converter changes your Composite video and audio signals to a single HDMI stream with integrated audio. The converter generates compatible analog to digital conversion signals to make the connection between the Composite video input and the HDMI output work.

- Connects video sources with analog RCA video connectors to HDMI monitors or projectors.
- Supports 1080p or 720p HDTV output resolutions.
- Supports embedded digital audio through HDMI compatible TVs or audio receivers.
- Plug and play functionality – no new software or drivers required.

## Specifications
