

Parallel Short Threaded Waterproof Cable Glands

www.vpi.us/c/cable-glands-parallel-69

Parallel (G,PF) Short Threaded Waterproof Cable Gland IP68 for Cable Range 4.5-7.8mm Thread Length 9mm

GLND-WTP-P-7-8B

- Parallel threaded cable glands consist of: lock nut, washer, body, seal, clamping claw and thread-lock sealing nut.
- Thread specifications: G (PF) thread, in accordance with ISO and JIS parallel threads for pipes - ISO 228-1).
- Housing Material: PA-66 (Nylon 66) Certified by UL (Fire Protection rating UL 94-2)
- EPDM outdoor weather resistant rubber gaskets
- IP68 rating for harsh environments.
- Seal and clamping claw on cable glands prevents the bolt nut from becoming loose and maintains its high torque.

Parallel (G,PF) Short Threaded Waterproof Cable Gland IP68 for Cable Range 6-10mm Thread Length 10mm

GLND-WTP-P-10B

- Parallel threaded cable glands consist of: lock nut, washer, body, seal, clamping claw and thread-lock sealing nut.
- Thread specifications: G (PF) thread, in accordance with ISO and JIS parallel threads for pipes - ISO 228-1).
- Housing Material: PA-66 (Nylon 66) Certified by UL (Fire Protection rating UL 94-2)
- EPDM outdoor weather resistant rubber gaskets
- IP68 rating for harsh environments.
- Seal and clamping claw on cable glands prevents the bolt nut from becoming loose and maintains its high torque.

Parallel (G,PF) Short Threaded Waterproof Cable Gland IP68 for Cable Range 7-12mm Thread Length 10mm

GLND-WTP-P-12G

- Parallel threaded cable glands consist of: lock nut, washer, body, seal, clamping claw and thread-lock sealing nut.
- Thread specifications: G (PF) thread, in accordance with ISO and JIS parallel threads for pipes - ISO 228-1).
- Housing Material: PA-66 (Nylon 66) Certified by UL (Fire Protection rating UL 94-2)
- EPDM outdoor weather resistant rubber gaskets
- IP68 rating for harsh environments.
- Seal and clamping claw on cable glands prevents the bolt nut from becoming loose and maintains its high torque.

Parallel (G,PF) Short Threaded Waterproof Cable Gland IP68 for Cable Range 9-14mm Thread Length 10mm

GLND-WTP-P-14B

- Parallel threaded cable glands consist of: lock nut, washer, body, seal, clamping claw and thread-lock sealing nut.
- Thread specifications: G (PF) thread, in accordance with ISO and JIS parallel threads for pipes - ISO 228-1).
- Housing Material: PA-66 (Nylon 66) Certified by UL (Fire Protection rating UL 94-2)
- EPDM outdoor weather resistant rubber gaskets
- IP68 rating for harsh environments.
- Seal and clamping claw on cable glands prevents the bolt nut from becoming loose and maintains its high torque.

Parallel (G,PF) Short Threaded Waterproof Cable Gland IP68 for Cable Range 18-25mm Thread Length 15mm

GLND-WTP-P-25B

- Parallel threaded cable glands consist of: lock nut, washer, body, seal, clamping claw and thread-lock sealing nut.
- Thread specifications: G (PF) thread, in accordance with ISO and JIS parallel threads for pipes - ISO 228-1).
- Housing Material: PA-66 (Nylon 66) Certified by UL (Fire Protection rating UL 94-2)
- EPDM outdoor weather resistant rubber gaskets
- IP68 rating for harsh environments.
- Seal and clamping claw on cable glands prevents the bolt nut from becoming loose and maintains its high torque.
