

D-Sub Solder Cup Connectors & Hoods

www.vpi.us/c/solder-cup-connector-hoods-253

Solder Cup DB9 Female Connector

DB9F-SLDR

- Industry standard female DB9 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup DB9 Male Connector

DB9M-SLDR

- Industry standard male DB9 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup DB15 Female Connector

DB15F-SLDR

- Industry standard female DB15 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup DB15 Male Connector

DB15M-SLDR

- Industry standard male DB15 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup DB25 Female Connector

DB25F-SLDR

- Industry standard female DB25 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup DB25 Male Connector

DB25M-SLDR

- Industry standard male DB25 connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

D-Sub Solder Cup Connectors & Hoods

www.vpi.us/c/solder-cup-connector-hoods-253

Solder Cup 15HD Female Connector

15HDF-SLDR

- Industry standard female 15HD connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

Solder Cup 15HD Male Connector

15HDM-SLDR

- Industry standard male 15HD connector.
- Maximum wire size: 20 AWG
- Solder cup contact termination.
- Steel shell material.

DB9 Connector Hood, Shielded

DB9-HOOD-SHLD

- Metalized plastic backshell for covering male/female DB9 connectors.
- Internal cable strain relief for improved durability.
- Metalized chrome plating provides effective shielding.
- Two piece cover design enables quick and easy assembly.
- Standard assembly and mating hardware included.

DB15 Connector Hood, Shielded

DB15-HOOD-SHLD

- Metalized plastic backshell for covering male/female DB15 connectors.
- Internal cable strain relief for improved durability.
- Metalized chrome plating provides effective shielding.
- Two piece cover design enables quick and easy assembly.
- Standard assembly and mating hardware included.

DB25 Connector Hood, Shielded

DB25-HOOD-SHLD

- Metalized plastic backshell for covering male/female DB25 connectors.
- Internal cable strain relief for improved durability.
- Metalized chrome plating provides effective shielding.
- Two piece cover design enables quick and easy assembly.
- Standard assembly and mating hardware included.
