

# CAT6 Industrial Super Flat Patch Cables

<https://www.vpi.us/sf-patch-cables/cable-sf-cat7-industrial-1960>

- Backwards compatible with CAT5 and CAT5e equipment.
- Stranded bare copper conductors for flexibility – great for frequent changes that occur at the wall outlet or patch panel.
- Similar to flat satin or ribbon cable, but these cables have twisted pairs.
- Patch cables and boots are the same color.
- Strain relief boots prevent excessive bending while reducing stress on the cable.
- Unshielded cable wired straight through.
- Ideal for industrial, high-temperature environments – supports temperatures up to 176°F (80°C).
- Available lengths: 2/5/10 feet

**CAT6-SF-xx-BLACK-IND**

VPI's CAT6 Super Flat Patch Cords are a great solution for hiding in tight spaces, where regular CAT6 patch cord is too bulky. These flat Ethernet cables give a neat appearance to desktops and wall outlets, and can be hidden underneath carpet.

## Specifications

- Black PVC jacket
- Cable thickness: 0.06"
- Cable width: 0.24"
- 32AWG stranded CAT6 UTP
- 8x8 (RJ45) plugs.
- 3 micron gold plated contacts
- Complies with TIA/EIA 568B standard

## Environmental

- Operating temperature: 32 to 176°F (0 to 80°C)
