

CAT8 Shielded Solid Bulk Cable

www.vpi.us/cat8-bulk-cables/cat8-solid-bulk-cable-2041

- Category 8 S/FTP 4-pair 23AWG solid pure copper cable.
- Max bandwidth: Up to 2,000 MHz (2GHz)
- Max data rate: Up to 40Gbps
- Overall foil shield around the four individually shielded pairs protects signals from external noise.
- Backwards compatible with all CATx categories.
- Designed for high performance 25G/40G Base-T data center applications.
- Excellent performance with POE++ applications.
- Complies with TIA/EIA 568A/568B standard.
- Length: 300 feet
 - Use for runs up to 98 feet (30 m).
- Color: Blue

CAT8-BULK-BLUE

VPI's CAT8 Solid Shielded Bulk Cable is capable of reaching up to 40Gbps transfer speed and up to 2GHz bandwidth. This CAT8 cord consists of four individually shielded pairs of 23 gauge solid bare copper conductors with an overall foil shield. It is backwards compatible with CAT5E, CAT6, CAT6A, and CAT7.

Specifications

- 23AWG solid S/FTP CAT8.
- Outside Diameter: 8mm ±0.2mm
- Max bandwidth: Up to 2,000 MHz (2GHz)
- Max data rate: Up to 40Gbps
- PVC Jacket
- Complies with TIA/EIA 568A/568B standard.
- Voltage rating: 300V AC
- Length: 300 feet
 - Use for runs up to 98 feet (30 m).
- Color: Blue

Environmental

- Operating temperature: up to 167°F (75°C).

Regulatory Approvals

- CE, UL, RoHS
